Caladium Innovations Pvt Ltd

Caladium Innovations Pvt Ltd., a subsidiary unit of Caladium Educational & Development Trust(R)., Looking at rapid growth in the information & communication technology, we felt it is the right time to innovate and expand with the higher aims of keeping in pace with the international standards of products and services. Well, it is your company as much as our, because it wouldn't have been

possible for us to reach the stage where we are without your unfalling support. Today it feels quite amazing to see that when we started in 1994 with our maiden venture Asterix Computers, the computers were in primary stages of development and the Internet was just taking the shape. On the hindsight, We feel we entered at an opportune time. Explore yourself with our unleashing services .
